WHITE, RYE AND BROWN BREAD, FRESH

EVERY DAY, 4 LOAVES 25c.

PASTRY OF ALL KINDS.

**PHILIP TRAPP, Proprietor.**

Agent for Swift's Canadian Creamery.

## CANADIAN GIRLS IN TRAINING CONFERENCE

The Senior C.G.I.T. Groups of Edmonton and District held their Conference at the Central United Church, Edmonton, Nov. 16, 17, 18. The theme "To strive, to seek, to find, and not to yield."

Two addresses were given by two members, followed by addresses given by Miss Constance Smith, Provincial Secretary, and "The Girlhood of India," by Miss M. Burton.

On Saturday the following subjects were discussed in Groups—The Girl and the Church, Friendship, Worship, Leisure Time, The Art of Being a Gentlewoman.

Another fine address was "Adventures in Reading." The proceedings were interspersed with games and sing songs.

In the evening 200 girls and leaders were entertained with a banquet, followed by 4 short addresses: Conference Thoughts; Suggestions for Handcraft; Reading; and An Endless Holiday—the latter taking the girls all over the British Isles and Europe.

On Sunday the conference was brought to a close with a Vesper service, open to all girls and their friends.

The main address, Come, My Friends; 'Tis not too late to Seek a Newer World—was given by Miss O. Smith.

Throughout the conference the discussions, addresses and worship were conducted by girls.

The delegates from Stony Plain were Mary Campbell, Nora Kowensky, Erna Michael, Margaret Fife.

Through the kindness of Miss Wood, T. J. Hardwick, A. E. Michael, L. Kowensky, and E. Lory 18 girls were able to go to the Sunday afternoon open session.

### "Tugboat Annie."

Mr. Goodwin presents for our edification and amusement this evening, the 22nd the much-talked-of picture "Tugboat Annie." As is well known, this film has had a long run wherever shown. This picture was the crowning success of the beloved artist-player, Marie Dressler. To be seen with her is the redoubtable Wallace Beery, which is a sure guarantee you'll pack away a lot of laughs.

The showing last Thursday, The F.P.I. proved to be a very interesting and instructive film, with a full complement of thrills of the new order. The first film put on was a first-class farce-comedy, and, was greatly appreciated.

### "Home for Christmas."

Mr. W. Sampson left on Saturday evening's train for the East, on his way "across the pond." He is making a side trip to Toronto and Niagara Falls. He sails from Montreal on November 23rd for Liverpool, and thence proceeds to his former home in Devonshire, England. Mr. Sampson expects to return about the latter part of January.

## Remembrance Day -- Its Memories And Lessons

The world has commemorated another anniversary of the signing of the Armistice,--the sixteenth. Remembrance Day, as we have come most appropriately to call November 11, falling on a Sunday as it did this year, was observed by hundreds of thousands of people in nations all over the world. From the pulpits of churches of all religious denominations Peace sermons were preached and the horrorfulness and brutality of war vividly depicted and unanimously condemned. Gathered at the graves of Unknown Warriors, assembled about cenotaphs and other monuments erected to the memory of the gallant dead, or meeting in solemn memorial services, men and women formed an almost unbroken circle around the world as they stood with bowed heads and in impressive silence as the hour of eleven o'clock struck.

It was Remembrance Day! People were flaming red poppies symbolical of Plaudens Fields and the bright red blood of youth there shed. Reverently they laid wreaths of poppies in many hallowed spots. People heard the pipes and drums play "The Lament," the bugles sound "Last Post" and "Reveille," and they saw the Colors slowly dipped.

Pride and sorrow were interwoven and strangely mixed as the memories of those of the older generation were carried back to 1914-1918 and to the first Armistice Day,--pride that men, and women too, had responded to the call of duty when that call came; sorrow that so many had been called upon to make the supreme sacrifice or go through life maimed and handicapped to the end of their days. And mingling with pride and sorrow there was a righteous anger that such a barbarism as War should be permitted and sanctioned by peoples and nations styling themselves Christian and civilized.

But does Remembrance Day mean nothing more than this? Does it begin and end with the twenty-four hours of November 11, and are we then to lapse into forgetfulness for the remaining 364 days of the year until once again November 11 calls upon us to stand in silence and remember?

Consider, who you are now reading these lines: Have the memories stirred only a few short days ago not already begun to fade? Is not that almost red hot righteous anger against War and all that War means which you felt so recently almost cooling off? If your passionate demand for Peace, and that never again shall War blast its way in this world, as keen to-day as it was when you stood in a silence that could almost be felt just a few days ago? Alas, it must be so. Indeed it is well that in many respects our human memories are short else we could not bear the burdens which memory would bring. But it is vitally important to the future of mankind that we should never forget all the tragedy that Remembrance Day brings to mind. So far as the swiftness and uselessness of War is concerned, every day should be Remembrance Day.

Canada is a peace-loving country. If the decision could be left to the Canadian people there would never be another war waged anywhere on this world's surface, nor upon its seas, nor in its air. Canada has always set the nations an example in disarmament; or rather by its refusal to engage in armaments. Our policy permeates force and numerically small and widely scattered militia is but a domestic police force maintained to guarantee law and order. Of offensive armaments Canada possesses none.

But as a nation of Peace, Canada has a duty to the whole world. At Geneva the voice of Canada is always raised for Peace; in world conference Canada's vote is always cast for Peace. But the responsibility is ours to make our voice for Peace stronger and still more emphatic in a world of nations apparently bent upon engaging in a race for war-like armaments unparalleled in all history.

Narrow nationalism, with all its selfishness, its suspicions, its jealousies and its animosities is the basic, the underlying cause of war. The truth of this statement is emphasized over and over again by the well known international correspondent, Isaac F. Marcrosson, in an article entitled "Does Europe Want Disarmament?" Selfish nationalism wrecked the World Economic Conference called to bring about tariff and currency readjustment, and because of that failure the whole world still staggers and suffers. Selfish nationalism has rendered every disarmament conference a failure. And because men still insist upon such narrow national selfishness, the nations are heading straight into another war.

Canada is not free of the taint of selfish nationalism, but it has not the grip on the people of this new and young land that it has upon the older countries of Europe and Asia. Nevertheless, if Canada's voice for World Peace is to be as strong and emphatic as it ought to be, the Canadian people must not only place a value upon the growth of any spirit of selfish nationalism but we must seek to eradicate it from our individual minds and hearts and from the policies of this Canadian Dominion.

Let us remember and keep fresh the memories and lessons of Remembrance Day, abhor War and all that tends towards War, and think and plan and live for Peace at home and in the world.

### Dominion Drama Festival

Brilliant British Playwright Pays Compliment To Canada

Canada is fortunate in having the Dominion drama festival established on such a firm basis, in the opinion of Noel Coward, brilliant British playwright, composer and actor, who is paying his first visit to Canada.

The Drama festival, he believes, is a distinct contribution to the theatre in that it makes people "theatre-minded," and stirs up interest among the members of little theatre groups, their friends and associates in an ever-widening circle.

"It is most interesting," said Mr. Coward, in an interview at Ottawa. "I should like to attend a festival. If possible, I shall be here next spring." Only 36 years old, Mr. Coward is one of the most successful living writers for the stage. He already has had 24 or 25 plays produced. Now he is on the way to Milwaukee to attend a rehearsal of his latest play, "Point Valain," which will open in Boston Christmas night.

### Chinese Farmers Lose Heavily

Losses to Chinese farmers and peasants occasioned by the prolonged drought and record heat wave of the past spring and summer are expected to exceed \$1,200,000,000, according to a report issued by the National Famine Relief Commission, based on reports received from the stricken districts.

## INDIGESTION?

Then  
Try **KRUSCHEN**  
at NO EXPENSE

If you suffer from loss of appetite, indigestion, sour stomach or a miserable feeling after meals there's nothing like Kruschen for relief. The little daily dose of Kruschen first stimulates the flow of gastric juices to aid digestion, and then ensures a complete, regular and unfailing elimination of all waste matter every day.

If you suffer, you'll welcome the opportunity to try Kruschen Salt--a positively free charge Ask your druggist for the Kruschen Giant Package. This is the Regular bottle, together with a separate FREE TRIAL bottle. Use the Trial bottle first. Then if you are not entirely convinced that Kruschen will do everything claimed for it, return the Regular package unopened to your druggist and he will redeem it at full value. But act quickly or your Free Trial Bottle will be gone. Your druggist has only a limited supply.

There would appear to be a serious shortage of alkali for domestic needs in Canada next spring as the 1934 production, plus the small carry-over, is not expected to exceed more than one-half normal requirements--Dominion Seed Branch.

## HOLDS FALSE TEETH TIGHT AS CEMENT

Plates can't possibly slip when you use **DR. WELLS' POWDER**. Largest seller in world--holds plates so tight they can't annoy you as comfortable as they actually feel and set like your own. Keeps mouth sanitary, breath pleasant--special comfort-cushion prevents sensitive gums from getting sore. Small cost--any druggist.

### Nobel Literary Prize

Pirandello, Famous Italian Dramatist, Receives Award

Lugi Pirandello, famous Italian dramatist and novelist was awarded the Nobel literary prize. Selected from a host of American and European literary figures, Pirandello was given the famous award, which last year went to Ivan Bunin, Russian author, and which normally is worth about \$45,000.

Pirandello was born at Gigeniti, Sicily, in 1867, and was educated at Rome and the University of Bonn. His present home is in Rome. His writings have been varied, including poetry, plays and prose.

His best known writings include: "As You Desire Me," "Six Characters in Search of an Author," "The Man With the Flower in His Mouth," "The Mock Emperor," "The Life I Gave You".

A woman claims to be able to drive home a two-inch nail with a single blow of a hammer. There's reckless driving for you!

### Business Improved

Conditions In General Throughout  
Canada On Uplift

Conditions in general throughout Canada have improved considerably and gradually since the low point in the early spring of 1933, the executive council of the Canadian Manufacturers' Association reported, coincident with the official opening of the Produced-in-Canada exhibition in Montreal.

Figures the council believed encouraging were presented in regard to empire trade. For the 12 months ended September, 1934, Canadian exports to empire countries represented over one-half of total exports to all other countries. The report adds "for this 12-month period our exports to empire countries amounted to almost \$324,000,000 which is greater than our exports to empire countries in 1930 when they amounted to \$316,000,000."

"Our exports to foreign countries, however, for 1930 were no less than \$567,000,000 as compared with \$307,000,000 for the year ending September, 1934."

Hogs graded in Canada for the first 43 weeks of 1934, ended October 25, numbered 2,373,094, a decrease of 172,459 on the corresponding period of 1933.

### Will Have Representative

A representative of the Peace River district will be added to the western board of grain standards, it was promised by E. B. Ramsay, chairman of the board of grain commissioners.

# Good Success Is Attained In Search For Drouth Resisting Wheat Of High Quality

Six years' intensive study to-day is bringing success in the search for a drouth resisting wheat with all the qualities of the famed Marquis and Reward strains.

"Drouth resisting wheat, including all the desirable agronomical qualities, is being achieved although a few years more will be required before it is ready to be placed at the disposal of the growers," declared Dr. O. S. Aamodt, youthful member of the department of field crops, University of Alberta.

Dr. Aamodt took time out from the sessions of the associate committee on grain research, a branch of the national research council, to detail achievements reached. "But don't think we are producing a wheat that will grow without moisture," he warned. "That is impossible."

The characters developed so far in the drouth resisting wheat hybrid were the ability to resist permanent wilting, growth habit favorable to dry periods, intensity of root systems and ability to germinate in dry soils. "Experiments in actual growing in the last two years show clearly drouth resistance can be transferred from one variety to another and in combination with other desirable agronomical qualities," Dr. Aamodt declared.

Ability of the strain to resist permanent wilting was among the major assets. Many wheats in use now take root and start to grow but when a dry spell comes along they wilt and die. The objective in the drouth resisting wheat is to give it the ability to recover from the wilt—case of lying dormant when moisture is lacking and taking life again when rain falls.

The growth habit came in for study when it was found drouth caused its greatest damage when the green shoots started to appear. Tests made show the drouth resisting hybrid goes through the shooting period in one week compared with two or three weeks for most other grains. Thus the danger period to the plant in its early stages is greatly reduced.

Intensity of the root system was a vital factor because the greater the intensity the more moisture the plant is capable of drawing from the soil. In this respect Dr. Aamodt pointed out past studies throughout the world were largely confined to the part of the plant above the ground.

## Lives Like Robinson Crusoe

German Has Enjoyed Himself On Island Twenty-Two Years

Paul Tile, a German, has been living as a modern "Robinson Crusoe" on a small island near Plat, Yugoslavia, for twenty-two years, and enjoying it. He was discovered recently and now crowds are visiting the place. Even women visit. Tile dislikes, have "crashed" the island by wearing male apparel. The man has planted orchards and vineyards, raised goats, kept bees, built a house made fishing nets and tools, and woven cloth for his clothes. He has even built concrete bridges across the narrow strip of water which separates his island from the mainland. Tile, once was a German hotel keeper. He divorced his wife in 1912, and since then has always shunned the sight of a woman. He sold his hotel, and bought the island.

## Learned Another Way

A bumptious fellow was giving evidence in a police court. "You say you stood up?" asked the Magistrate. "I said," retorted the conceited one, "that I stood. If one stands one must stand up. There is no other way of standing."

"Oh, isn't there?" replied the magistrate. "Pay two pounds for contempt of court, and—stand down!"

Attendant: Do you wish to consult Wooming Footing, the great Chinese mystic?

Woman: Ay, lass—tell 'im 'is mother's 'ere from Lancashire.

W. N. U. 2078

## Canadian Employment Gains

Increase Of Ten Thousand Workers Shown As At Oct. 1st

Industrial employment in Canada at the beginning of October showed an increase of over ten thousand workers according to a statement released by the Dominion Bureau of Statistics. Reports were received from 4,654 firms, whose staffs aggregated 935,486 persons, as compared with 923,078 in the preceding month. The gain in employment at this time of the year is particularly important, as in the three preceding years for which statistics are available activity has frequently declined between September and October. The index, based upon the average for the calendar year 1928 as 100, stood at 100.0 on October 1, 1934, compared with 98.8 on September 1, 1934, and 90.4 on October 1, 1933.

The most outstanding feature of the October 1 survey of employment was the unusually pronounced expansion in bush operations, which directly provided work for over 7,600 persons among the co-operating firms. Mining showed the greatest October 1 gain on record; transportation, building and construction trade also reported considerable improvement over the preceding month. A slight advance occurred on the whole in manufacturing, being the ninth consecutive gain since the opening of the year. On the other hand, communications, highway and railway construction, and hotels and restaurants released a large number of persons as the active season drew to a close.

## Showed The Way

Being asked, after his great voyage, if he did not think others could have accomplished it, Columbus is said to have invited the questioner to make an egg stand on end. When he failed, Columbus struck the egg on the table and made it stand on its broken part, so suggesting that now he had shown the way to the New World anyone could follow it.

## Studied Heat Casualties

More Men Affected But Death Rate Higher For Women

Staff physicians of hospitals at Kansas City, who treated many heat victims last summer, are now checking over their records and seeking to throw more light on the subject. Medical literature, they say, does not hold a great deal of information on heat attacks.

At General Hospital 82 cases were treated, of which 63 were heat stroke. The others were heat exhaustion. In the former it was found the temperature usually was far above normal, but the body was cold and clammy. More men were killed by the heat than women, but the mortality rate was higher for women. Death resulted in 34 of the 82 cases, 32 of the deaths being among those suffering from heat stroke.

Other data showed that where the temperature reached 108 degrees death resulted in 63.4 per cent. Those who suffered from cyanosis (blue lips and finger nails) died in 78 per cent. of the cases. The death rate of those who lost consciousness was 55.5 per cent. All whose blood pressure fell below 90 died, and 54.5 per cent. of those whose pulse beat passed 140 beats a minute succumbed.

## Providing Timothy Seed

Thanks to the continuous efforts of the Dominion Seed Branch and farmers who have followed the branch's policy, Alberta and British Columbia this year will provide 50 per cent. of Canada's timothy seed requirements. Prices are the highest in years. At an average of 15 cents a pound, Alberta's crop will be worth \$250,000.

## The SNAPSHOT GUILD

SNAPSHOTS AT NIGHT

Just a few bright lamps and a little care make indoor snaps like this easy. Arrangement of light, subjects and camera indicated in the diagram.

Until recently the idea of making snapshots at night ranked alongside that of other classic picture-taking impossibilities—a snapshot of "a black cat in a coal pile at midnight." But now, with the new extremely sensitive films and brilliant, inexpensive flashes, snapshots indoors at night are as easy as any others.

Let's say you want to snap Sue at the piano—assuming that Sue looks and feels natural—facing your stand, with camera, off to the side of the piano. There's an ordinary floor lamp—one of those three-light affairs—just beyond the piano and another on your side. Both lamps are just beyond the field of your camera's finder. Tilt the shades so that the light reaching your subject is unobtrusive. Put two or three photoflood-type lights in the lamp that's beyond your subject, one in the nearer lamp, turn 'em on—and—snap away!

If you're in a box camera, better use a photo-flash bulb. (The method is described in a few paragraphs ahead.) On the other hand, if you use a more advanced camera with a lens that's "faster" than f/8, you won't need the photofloods quite so close to the subject.

The regular snapshot exposure—length of a second—will do the trick nicely, assuming your lens has an opening of f/8.5 or greater.

The diagram above indicates the relative placing of subject, lights and camera for the picture of Sue at the piano. Naturally, you will arrange the lights as you see fit, but keep in mind these simple rules:

First, light intensity decreases rapidly as the lamp is pulled back from the subject. Six feet away, a lamp's picture making brilliance is only a quarter what it is at three feet.

Second, shield your camera lens from the direct rays of light.

Third, while you can use photofloods (they cost a quarter and are good for at least two hours of picture making) in ordinary fixtures, they are more efficient in reflectors—either home-made or inexpensively purchased.

Fourth, don't try to light up everything in a picture. Shade is just as important as the highlights. Fifth, always use modern, super-sensitive film. It's available in the standard makes, at very slight extra cost.

Indoor snapshots may also be made with photoflash bulbs. If you want to stop ping-pong players in action, for example, these handy, safe, inexpensive flash bulbs are just the thing. They are small, and the bulbs will do very well in an average room. If you haven't a battery-operated holder for flash bulbs, you can screw the bulb into any standard electric light socket, and, when all's set, turn on the current.

Sixth, the possibilities for indoor snaps are endless. If you haven't tried your hand at this kind of snapshotting, you're missing a lot. And that's too bad.

JOHN VAN GUILDER.

# Speaker Maintains That Drouth Is Only Passing Phase And Climatic Conditions Not Changed

## CHOOSING YOUR SWEETHEART

BY HIS HANDWRITING

By LAWRENCE HILBERT

(Grapho-Analyst)

(All Rights Reserved)

(Editor's Note: Many letters of appreciation have been received from readers who have accepted the author's offer of a personal analysis from their own handwriting. Have you sent yours? See the announcement following this article.)

The value of Grapho-Analysis is never more evident than when it is used to assist Cupid. For it tears aside the veil that love so often weaves and reveals in unerring fashion, the characteristics of the writer.

It is not merely a question of honesty and straightforwardness—although these are points that have to be considered. The emotions and the degree of expressiveness of those emotions—these are of vital importance.

Take, for example, a girl who has a warm and ardent nature; who feels things deeply and who expresses that feeling. She likes to be loved and would be very unhappy without the love of others. What chance of happiness would she have, married to a man who is cool and unemotional? Would she not be a victim of affection; and who is so governed by his mind that he hasn't a generous streak in his nature? Only the other day, I received a very poignant letter from a girl of 24 years of age. She was married two years ago, but has never been happy, since the first raptures departed. She is of the type I mention above, and asks me why she is unhappy, and wonders whether she is responsible.

The writing of her husband, which she enclosed, shows that he has about as much feeling and affection as a gangster. These two are mismatched; I can see very little chance of happiness for them. Here's a case where the advice of a Grapho-Analyst would have prevented much unhappiness.

There is nothing sadder than opposite makes the happiest marriages. This is fallacious. Look on every side of you, and you will find married people who are unhappy and discontented, because their natures are so unlike.

Marriage demands affinity of interests. It is too much to ask, or to expect, that the average couple will have all the same interests, the same likes and dislikes—and there is a good deal of compromise necessary in most marriages. But a young couple whose natures are at the opposite ends of the pole are starting out with a tremendous handicap. And that it is too great a penalty is seen by the number of unsuccessful marriages.

M. H. Toronto—By all means sue your husband for divorce. Yours is a sad case. Married four years ago, your husband left you three years ago, and now you meet a young man who loves you. He is a straightforward young man, and is trustworthy—which cannot be said for your husband. I am writing you direct, regarding the personal matter.

Can the author help you? Can he show you what your friends are really like? A personal analysis may be very helpful to you. Send specimens of the writing you want analysed, and enclose 10c coin for each. Send with 3c stamped addressed envelope, to: Lawrence Hilbert, care of Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg, Man. Letters are, of course, confidential, and will be answered as soon as possible, but please allow about two weeks for your reply.

## An Ancient Puppet Show

Small Figures 5,000 Years Old Found In Tomb

Marionettes have been found among the ruins of the tomb of a tomb near the pyramid of Sesostris at Lisht. The tomb is of the twelfth dynasty, and other objects found in the rubbish are certainly of that period, so that there is no doubt the new finds are 5,000 years old. There are the figures two inches high representing little men dancing and clapping their hands. One of the tiny men apparently had grown horns. Mounted on small pedestals they sit loosely into all ivory shank, and both pedestal and shank are pierced with holes through which strings can be threaded and pulled to make the figures dance.

"Did you pass your exam?" "Well, it was like this—you see

"Shake! Neither did I."

## Studying Lake Of Reptiles

Speaking before a Kiwanis meeting at Swift Current, Hon. J. G. Taggart, provincial minister of agriculture, expressed full confidence in the future of agriculture in Saskatchewan. He criticized the theories of impending surface water by the erection of dams and planting trees, in respect to the influence of such practices on climatic conditions. He stressed the need of appraising the whole of Canada of actual conditions in the prairie areas and the facts upon which agricultural recovery should be based.

Declaring that in historic times there had been no substantial change in climate in any part of the world, except through physical influences, Mr. Taggart told of drouth periods in Saskatchewan in the late '80's and the early '90's and in the early '70's, and said these experiences had been worse than the present, there having been great destitution and suffering. The country was not a desert, and one must not accept temporary conditions as a forerunner of extended drouth, there being every reason to expect a recurrence of wet years.

The problem of cereal crops was discussed in the areas affected by drouth was adjustment; a type of agriculture and of life should be adopted to make for reasonable security. Crops should be raised that were best suited to the environment, and it should be recognized that certain crops were best adapted to the southern Saskatchewan region. Agriculturists should adopt the best methods scientifically and apply the resources at their command to secure the best in cultivation and marketing, exports of all sorts being conducted before general adoption. Wheat, the minister said, would continue to be the major crop of southern Saskatchewan, plus minor products of other sorts, largely for local consumption.

Scouting the theory of influencing climatic by imposing surface water, Mr. Taggart still maintained that dams were valuable for water surfaces, for impounding water for stock and for irrigation to assure winter feed. Tree planting on farms was also valuable for certain purposes, chiefly shelter and improvement of home surroundings, but not as a climatic influence.

Treating of the misconception of present prairie conditions on the part of people in other parts of Canada, the minister declared it to be the duty of citizens to impress upon others the fact that the future of agriculture depends solely on precipitation, not on pet theories.

There were many things that could be done to improve the situation in respect of crop, individually and collectively, but these should be based on adaptation to physical conditions.

Noting that in Saskatchewan areas that had passed through former periods of drouth and in which drouth had again come there was much less suffering than in areas where the settlers had no such experience previously, Mr. Taggart declared his conviction that the agricultural experience of the last few years in Saskatchewan would mean much to our farmers in the next ten years.

## Expedition Finds Croc Crestures

Within Borders Of Abyssinia

Lake Rudolf, in Africa, where reptiles rule much as they did millions of years ago, is being studied by an expedition which has established itself on a volcanic island of four square miles. The brackish sheet of water covers 400 square miles at low water, and 130 feet above sea level. It is within the borders of Abyssinia, Kenya, and the Sudan. Crocodiles abound there, while monitors larger than man prowl slowly about, digging for the crocodile eggs on which they feed. They resemble dragons as they thrust out their long purple tongues. Monster turtles ignore the crocodiles, whose teeth would break against their hard shells. The few species of birds include peculiar spoonbills, which lay orange-colored eggs on rocky ledges, razor-billed celibates and cormorants, who visit the lake only at night.

## Little Journeys in Science

## BACTERIA

(By Gordon H. Guest, M.A.)

When the microscope was invented a new field of science known as bacteriology, was opened up. Bacteria is the name given to a large group of plant organisms of minute size. Some of these have a rod-like appearance, some are spherical, and some look like trailing bits of filament. The rod-like type are called bacilli, and it requires twenty-five thousand of them placed end to end to occupy one inch of space.

Bacteria reproduce by the division of their bodies, one rod or sphere changing with great rapidity into two. The bacilli which bring about the fermentation of hay, double their length and divide every half hour. Many kinds of bacteria are killed by light while others cannot withstand great extremes of heat and cold. A few varieties, however, exist in a dormant state at 222 degrees below zero. A temperature of 87 degrees above zero destroys most bacteria, but some are known to live in hot springs where the temperature is 104 degrees.

Because they are plants, bacteria have no stomachs, and so they cannot absorb unrefined food. They therefore go into their food. When they have penetrated into the material which they are going to use for food, they give off chemicals which change the material into a form in which it can be absorbed. Thus bacteria bring about the decomposition of dead plants and animals. Slowly but surely the bacteria play an important part in the complete decomposition of the dead matter into many compounds, including such important elements as carbon dioxide and ammonia. If it were not for this process of destruction all living things would perish. Thus would soon perish, because the chemical elements upon which life depends would be locked up in dead plants and animals. Thus the chemical elements necessary to life are always travelling in a circle. Everything comes from the earth, returns to the earth and is used over and over again. If the circle is ever broken all life would stop. Bacteria play an important part in keeping this vital circle unbroken.

## A Product Of Proved Merit

## Vicks Va-tro-nol, For Preventing Colds, Meets With Wonderful Success

Windsor, Ont.—An intensive newspaper advertising campaign introducing Vicks Va-tro-nol, the new aid in preventing colds, has just started in Western Canada. Introduced in Ontario last year, and in the United States two years before, Va-tro-nol immediately became immensely popular.

Newspapers were selected as the principal medium for the introduction of Va-tro-nol because of the excellent results they have produced for Vicks VapoRub, according to the announcement.

For many years VapoRub has been the world's most extensively used cold remedy—the family standby for treating colds in 68 countries. Vicks officials attribute much of the tremendous VapoRub sales—over 26,000,000 jars last year—to honest consistent newspaper advertising, backing a product of proved merit.

Similar international success is being achieved now by Vicks Va-tro-nol—companion to VapoRub in Vicks Plan for Better Control of Colds. Vicks Chemists and medical consultants developed the formula for Vicks Va-tro-nol after years of clinical research. It is especially designed for nose and throat, where most colds start.

Based on a new idea for preventing colds—by aiding Nature's own cold-fighting functions in the nose—Va-tro-nol is introduced as "the ideal companion to Vicks VapoRub, the modern external method of treating colds." Together with certain simple rules of health, these two preparations form Vicks Plan for Better Control of Colds. Records of thousands of clinical tests—conducted over a period of two years under medical supervision—indicate that Vicks Plan greatly reduced the number, duration and dangers of colds.

In accordance with the Vicks Company's policy for nearly 30 years, VapoRub and Va-tro-nol will be heavily advertised in newspapers throughout the season. They will also be backed by the distribution of thousands of samples through drug stores in the Dominion.

Since 1929, Vicks has steadily increased its advertising while other companies were drastically curtailing theirs or eliminating it entirely. And during these five turbulent years sales of Vicks products have increased from 26,000,000 to over 53,000,000 packages annually, despite adverse business conditions.

Having been mute for more than 100 years, the great organ of the Church of St. John Lateran, at Rome, Italy, is being reconstructed for use in the next church festival.

W. N. U. 2078

## From the New PURITY COOK BOOK

Illustrated is the Christmas Cake recipe number 372 in the new Purity Cook Book. Containing 743 tested recipes with numerous household hints and special menus, this new Cook Book, costing \$10.00 and two pages of research, is now available in the kitchen. Every day it is opened, this great at-the-page-at-a-glance book is your everyday kitchen help. Write for your copy today for 50 cents. Write for the Purity Flour Mills, Dept. 624, Western Canada Flour Mills, Co. Limited, Toronto, Winnipeg or Calgary.

## SUNDAY SCHOOL LESSON

NOVEMBER 25

## THE CHRISTIAN STEWARD

Golden text: "Well done, good and faithful servant; thou hast been faithful over a few things, I will set thee over many things; enter thou into the joy of thy Lord." Matthew 25:21.

Lesson: Matthew 25:14-30.  
Devotional Reading: Malachi 3:7-12.

## Explanations and Comments

The Charge to the Stewards, verses 14, 15. Jesus was talking with his disciples about the Kingdom of Heaven, and he began an illuminating parable by saying that the situation was comparable to that of a man who, being able to go into another country, called his servants and delivered to them his goods. A man of means in the time of Christ on leaving home for a long period would have trusted his servants to whom he could hand over the conduct of his affairs, the tillage of his land, and the use of his money in trade.

How the Stewardship Was Carried Out, verses 16-18. The servants who received five and two talents respectively lost no time in trading with them and doubling each his amount, but the man who received one talent hid it in the earth. It was a common practice in the East to bury money for safekeeping, but his master wanted increase as well as safety.

The Two Stewards Rewarded, verses 19-23. After a long time the master returned and the servants made their reports. "Well done, good and faithful servant," he said to the man who had doubled his five talents; "thou has been faithful over a few things, I will set thee over many things; enter thou into the joy of thy Lord." "Come and share your master's feast" is Moffatt's translation.

The One Steward Punished, verses 24-30. "Lord, I knew that thou art a hard (austere, Lk. 19:21) man," said he who had received one talent, "reaping where thou didst not sow, and gathering where thou didst not scatter." He uses proverbial expressions to describe an unscrupulous, grasping man. "It is all work and no pay," in his master's service, "his master takes all the increase and gives the laborer no share in the reward," he thus says, "And I was afraid to be continued, 'And went away and hid thy talent in the earth; lo, thou hast thine own.'"

"Thou wicked and slothful servant!" exclaimed his master. "You call me hard, I call you a churl!" (A. B. Bruce). "Out of thine own mouth will I judge thee," Lk. 19:22. "Thou knowest [didst thou] that I reap where I sowed not, and gather where I did not scatter; thou oughtest therefore to have put my money to the bankers, that at my coming I should have received back mine own with interest." Turning to the men who would carry out his will, he said: "Take ye away therefore the talent from him, and give it unto him that hath the ten talents." The he gave voice to a general principle which, hard and inexorable, is always true: "Unto every one that hath shall be given, and he shall have abundance; but from him that hath not, even that which he hath shall be taken away." No better interpretation of the seeming paradox in the last part of this statement could be found than the words of Aristotle: "He who hath this or that, and makes no use of it may not improperly be said to have it and not to have it."

## for COUGHS

Take half a teaspoonful of Mink's in molasses. Heat the milk and stir in. Also rub it well into your chest.

You'll get relief!

**MINK'S**  
"KING OF PAIN"  
LINIMENT

## Tested Eczema Remedy

## Is Prescription of Doctor

Your skin trouble—whether it is eczema, acne, hives, dandruff, ringworm infection or pimples and blotches—will be positively benefited by D.D.D., because D.D.D. is a tried and tested Physician's Prescription. D.D.D. was developed originally for his own patients by Dr. D. D. Dennis. It is now manufactured by the makers of Campana's Italian Balm. In 35 years D.D.D. has brought clear, beautiful skin to millions. At drugstore. Trial size 50c. Guaranteed to give instant relief or money refunded.

A soft anwer may start good luck your way.

## IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

## Wake up your Liver Bile

## —No Calomel necessary

For you to feel healthy and happy, your liver must pour two pints of liquid bile into your bowels, every day. Without that bile, you are miserable. Poor people! Slow elimination in the body. General weakness. How can you expect to feel healthy and happy when your liver is not working properly? You need Carter's Little Liver Pills. Purity vegetable base. Quite safe. Write for them by name. Refuse substitutes. Size, 50c, all drugstore.

## WORLD HAPPENINGS BRIEFLY TOLD

Lieutenant-Governor Herbert A. Bruce of Ontario has been elected to the board of the Dominion Bank.

Robert W. Babson, statistical expert, advocates a coalition government in the United States beginning in 1937.

"Given similar jurisdiction, namely, monetary and customs control, British Columbia is in a better financial position than the Dominion of Canada," Premier R. B. Pattullo declared in a public address.

Prompt construction of two giant airships, an aircraft carrier and a "flying deck" cruiser unlike any other ship now afloat has been proposed privately to President Roosevelt's aviation commission.

Dr. A. L. McNabb, director of the Ontario health laboratories in Toronto, revealed he had succeeded in isolating tularaemia germs infecting a human being. He said he believed

**CHRISTMAS CAKE**—Christmas dinner . . . a monster turkey, nuts, candies, paper hats which come from the gaily colored Christmas crackers—and to bring to a conclusion the year's greatest feast—a Christmas Pudding and a Christmas Cake made from PURITY FLOUR. You'll appreciate the high quality, the absolute uniformity of PURITY FLOUR in the season of Christmas baking. It's best for all kinds of baking. All baking made with it is marked by a distinctive, pleasing flavor, an even texture, good color and the other qualities which fill the housewife's heart with pride. Buy a bag today from your grocer, and keep only one brand of flour in your kitchen.

**PURITY FLOUR**  
BEST FOR ALL YOUR BAKING

It was the first time such an isolation had been achieved in Canada.

## Indigestion, Gas

Mrs. Elizabeth Stewart of 129 St. Caroline St., Hamilton, Ont., says: "I had indigestion most all the while, and was continually bloated. That is, I had heartburn and would become dizzy, headachy, frequently, and I was never able to eat. Dr. Pierce's Golden Medical Discovery cured me. I have had no stomach trouble in years." All druggists.

## WILL MEET TO PLAN CHANGE IN WHEAT QUOTA

London.—The ultimate rate of international efforts to regulate the export of wheat may be at stake when the international wheat, advisory committee meets again at Budapest, Hungary, this week.

Although it is a committee meeting, representatives of all 21 signatories to the world wheat pact signed in London in August, 1933, are expected to be on hand.

The cardinal questions that will arise comprise the following:

Extension of the wheat agreements from July 31, 1935 (when they formally expire) to July 31, 1937.

Provision for continuation of the efforts to adjust wheat supply to demand and thus dispose of the long-standing surplus.

Readjustments of the principle upon which wheat export quotas for the principal exporters are calculated.

Subdivision of the crop year quotas into quarterly periods, instead of one 12-month quota as at present.

The creation of a system of quota reserves designed to meet special contingencies, and impart greater flexibility to the working of the wheat agreement.

The proposed changes in the export quota system affect the working of the whole wheat agreement. Hitherto, the world demand for imported wheat and flour has been divided among the chief exporting countries, and their export quotas fixed accordingly.

The Argentine's exports during the first crop year of the pact, ending last July 31, exceeding her quota by nearly 40,000,000 bushels. She continued heavy shipments as a result of which fixing of quotas for the present crop year was deferred until the meeting next week instead of being settled in August.

It is to meet the possible recurrence of such a contingency, forced by higher production than estimated, that the system of quota reserves is proposed. The world demand for the present crop year ending next July is estimated at 600,000,000 bushels. Basic export quotas will, it is proposed, be again distributed on a pro rata basis.

But from the basic quotas, under the new plan, five per cent. in each case would be set aside as a reserve. These would be utilized to meet the export needs of countries with more than average yields per acre as against countries with under-average yields.

It is hoped, furthermore, that institution of quarterly quotas, instead of annual quotas will tend to make the whole system of regulated exports more workable.

## Naval Conversations

Britain Makes Attempt To Iron Out Some Of The Difficulties

London.—Reliable reports said Great Britain tried without success to induce the United States representatives at two-power naval conversations here to abandon their opposition to compromise proposals put forward by the British delegation.

A lengthy surprise conference at which the British delegates further explained their plan—which would, it is understood, grant Japan naval equality in name but not in fact—failed to shake the Americans' insistence on continuance of the basic principles of the Washington and London naval treaties.

The British representatives had asked for the meeting "and in its course, it was learned, they asked many questions trying to get the United States delegates to offer substitute compromise proposals. All of these the Americans evaded.

### Was War Nurse

Montreal.—Miss Harriet Edith Carman, one of the most distinguished of Canadian overseas nurses, died in hospital here after a brief illness. Miss Carman, who went overseas with the McGill hospital unit and served for nearly five years in military hospitals, being noted for her services, was born in Winnipeg.

## War On Insect Pests

Will Continue Unceasing Fight On War Front

Ottawa.—Plans for the continuation of the unceasing war on insect pests on a front extending from the Atlantic to the Pacific will be threatened out at a conference here on Nov. 20. Then all the officers in charge of the Dominion government's entomological and field stations will gather here to review the work done on insect control in the past few years and discuss plans for the future.

The last conference of this kind was held seven years ago, and the coming gathering is expected to have an important bearing on future policy. The officers who will come from various parts of Canada are those who have charge of the field work of the entomological branch of the department of agriculture and they will meet in various groups with the headquarters staff here.

Grasshopper control on the prairie provinces will be an important matter under discussion. The last few years have been difficult ones for the officials fighting the grasshoppers and preliminary reports from field officers indicate next year will find the "hoppers again attacking western grain fields in large numbers.

## Arms Situation Difficult

Premier MacDonald Urges License Plan To Solve Problem

Southampton, Eng.—Prime Minister Ramsay MacDonald reiterated his conviction that the only way to solve the disarmament problem is to develop an international licensing system for manufacture of arms in a speech at Southampton.

In emphatic terms he expressed his adherence to the cause of peace while pointing out the difficulties confronting the government in dealing with the armaments question.

The government was zealously pursuing a peace policy, he said, but the foreign secretary (Sir John Simon) had to sit around tables not with peace-loving peoples, but with representatives who "do not share our views and have grievances."

"You can pipe but if they don't want to dance you cannot compel them," he said.

"We have got to accept armaments which I work day and night to diminish," he said, adding he would accept no defeat in his efforts to advance peace.

## Fog Cost Three Lives

Transportation Paralyzed In Some Sections Of United Kingdom

London.—A thick fog which cost three lives and spread generally throughout the United Kingdom, paralyzed transportation in some sections.

London and the area to the south were clear, but the country westward to Bristol and northward to Glasgow was thickly smothered.

A train killed two railway guards who were unloading race horses near Derby, while a motorcycle died after a collision at Kettering. Six fishing vessels collided off Lowestoft and fog held ships at Liverpool, while the Calcedonia from New York was forced to wait at Greenock before proceeding to Glasgow. Shipping in the Bristol channel, on the Mersey river and the River Clyde did not move and boats for Dublin and Belfast were held up.

## NEW PREMIER OF FRANCE

Pierre Etienne Flandin, erstwhile Minister of Public Works, who succeeds "Papa" Doumergue as Prime Minister of France, Six-foot-six in height the new Premier needed only 10 hours to put together the pieces of the Cabinet wrecked by Edouard Herriot's radical Socialists.

## Remains House Leader

Hon. George S. Henry Endorsed By Ontario Conservatives

Toronto.—Hon. George S. Henry, former premier, was endorsed as house leader for the Conservative opposition at the next legislature session by Conservative members in caucus here. The members recommended a provincial convention be called immediately after the session to consider party leadership and policy. Karl K. Homuth, former Conservative member for West Waterloo, had called on Mr. Henry to resign and to summon a convention to choose a new leader. After the caucus, Mr. Homuth declared himself satisfied with the results and maintained he had "won the fight."

"I feel that the course I have taken was well worthwhile," Mr. Homuth said. "After the session is over the reorganization of the party as a whole can take place."

The members also recommended all Conservative candidates at the June 19 provincial election be summoned into conference with Mr. Henry and his legislative followers before the session convenes. The conference would be for the purpose of considering party questions and advice to members. Mr. Henry declared this would be done.

## Labor Legislation

Proposed Changes Approved By The Ontario Cabinet

Toronto.—Proposed labor legislation of Hon. A. W. Roebuck, Ontario attorney-general and minister of labor, has been approved by the cabinet and will be submitted to the caucus of Ontario Liberals here this week, Premier Mitchell F. Hepburn announced after a lengthy cabinet session.

The premier in announcing the cabinet's decision, insisted the legislation had been incorrectly termed "codes." He associated that name with price-fixing in the United States. Ontario's legislation has nothing to do with price-fixing, Mr. Hepburn stated, but is aimed to improve the social standard of the worker and combat cut-throat competition in industry. The element of compulsion will be absent.

## An Irish Republic

Says German Steamers Unloading Cargoes At Irish Ports

London.—"Within a very few months President Eamon de Valera will be in a position to declare an Irish republic—both de jure and de facto," declared John Morgan, professor of constitutional law at London University, at a meeting of Irish loyalists here.

The meeting passed a resolution calling on the British government to declare its intentions in regard to "repeated violations" of the Anglo-Irish treaty, outstanding of which is the non-payment of land annuities that led to the tariff war between Britain and the Irish Free State.

Prof. Morgan said "the so-called treaty" was legally dead. The Dublin legislature had abolished four of its most important clauses, embodying safeguards vital to maintenance of the British connection. He said loyalist friends in Ireland had told him that German steamers were unloading cargoes at Irish ports with the greatest secrecy, and he would leave his hearers to guess what those cargoes contained.

## Farm Club Movement

Thirty-Two Teams To Compete At Royal Winter Fair

Toronto.—Thirty-two club teams of two members each will compete in livestock and field crop projects at the Royal Winter fair here this week. The competition is that of the national club contests, held in connection with the boys' and girls' farm club movement.

Only two girls are included in the teams coming to Toronto this year. They are Bernice Hornbrook, of the Sussex Poultry Club, Sussex, N.B., and Louise McDermott, of the Hazelridge Poultry Club, Hazelridge, Man.

## Identifies Meisner

John Labatt, London Brewer, Declares Meisner One Of Kidnappers

London, Ont.—John S. Labatt, London brewer, testified David Meisner as one of three men who kidnapped him on a lonely western Ontario road last August and held him for almost 60 hours before releasing him near Toronto.

Labatt was the first witness called at the preliminary hearing of Meisner conducted by Magistrate C. W. Hawkeshaw.

Meisner was committed for trial at the next sittings.

## Saskatchewan Oil Find

Antigonish, N.S.—Dr. Donald F. MacDonald, associate professor of geology at St. Francis Xavier University and former United States government expert, has been granted leave of absence to report on a new discovery of oil in central Saskatchewan. He will leave shortly for the west, planning to return to the university within a month.

## Air Mail Plane Crash

Sydney, Australia.—Four persons, three members of the crew and one a passenger, were killed when an Imperial Airways air mail plane crashed 29 miles from Long Beach, Queensland. Long Beach is approximately 300 miles northwest of Brisbane. The cause of the crash was not immediately known.

## TO PREPARE FOR VOTING ON THE SAAR QUESTION

Geneva.—With Europe's political atmosphere disturbed by reports German Nazis are planning to seize the Saar by force and French preparations to forestall any such move, the League of Nations council will meet Nov. 21 to compete arrangements for the Saar plebiscite.

Tension prevailing during recent weeks has lessened, however, during the past few days as result of statements by German authorities that no such move is being prepared and disclaimers by the French that they intend to send troops into the region.

(Residents of the rich Saar basin, governed since the treaty of Versailles by the league, vote Jan. 13 to remain under the league, go back to Germany or join France.)

German circles at Geneva expressed the belief the disarmament situation, insofar as Germany is concerned, may be clarified after the plebiscite, which, it is agreed here, will remove a serious problem from the continent's political life.

The Germans, however, insist there must be recognition of their right to equality in arms before they return to the disarmament conference.

That conference which meets at its meeting here will be to devise ways of interpreting the will of the voters as expressed at the plebiscite.

There is no treaty provision which declares a majority vote of the inhabitants will decide the issue for the territory, a wholehearted electoral districts vote overwhelming for league trusteeship or annexation to France, it is believed juridically possible for the council to allocate these regions in accordance with the will of the voters.

## Winnipeg Bread War

Chain Stores Are Blamed For Conditions In Baking Industry

Winnipeg.—Blaming chain stores for conditions in the baking industry which have led to a "bread war" in Winnipeg, the Retail Merchants' Association submitted a brief to Premier John Bracken urging that immediate action be taken to remedy the situation.

Enforcement of rules and regulations now on statutes of labor and health departments, it contended, would do much to alleviate the bakers' troubles and enable independent bakers to remain in business.

The brief referred to an order-in-council passed in Alberta appointing a deputy minister to investigate the Alberta baking industry, and the fact bakers there have submitted a code for approval so they could come under the "Trades and Industries Act."

The association charged chain stores would not permit retail shops to sell bread at the same prices the chains quoted, and consequently undercut prices. As a result, wages in bakeries dropped until "men worked 14 and 16 hours daily for as little as \$10 a month. Quality of bread likewise suffered and in some instances was practically unfit for human consumption."

Bread prices in Winnipeg were as low as two loaves for five cents, and reports came from points in the district of drastic cuts in prices.

## Considers Works Program

Cabinet Council In Session Attended To Routine Matters

Ottawa.—Meeting in two brief sessions, cabinet council devoted its attention to an accumulation of routine matters. At the close of the sittings, though, there was no matter on which an announcement was available.

Public works program was the main subject under consideration. Tenders for various works were gone over with a view to deciding the awarding of contracts.

### Majority Against Lottery Bill

London.—The government's betting and lottery bill, which forbids sale of tickets and publication of any news about lotteries and sweepstakes, was given third and final reading by the House of Commons. The vote was 206 to 38. The bill will now go to the house of lords.

## EXPERIMENTAL FARMS TO GET NEW ADMINISTRATION BUILDING

Above is the architect's conception of the new Administration Building for the Dominion Experimental Farms, which is to be erected at the Central Experimental Farm at Ottawa.

## THE NEWS OF STONY PLAIN AND DISTRICT.

Don Boyce has returned to Stony, after spending several months down on the prairie, visiting friends.

The big game party headed by A. E. Michael returned last week from Mooseland, and the Editor has since been enjoying T-bones from a purchased 2 year old bull moose.

Rev H. Kuring held Lutheran service in English last Sunday evening in Stony Plain.

Rev Martin Dietrich, O.F.M., of North Edmonton, will offer Holy Mass at St. Philip's church, Stony Plain, on Sunday, Nov. 25 at 9.30.

Secretary Best will again be in Stony, on Monday next, the 26, for the purpose of collecting taxes from Inga rate-payers.

Constable Lewis is making a business trip to Peace River over the week end.

The Martins, Stony's old time favorite musicians, who have not been heard here in a long while, paid us a visit on Friday night, and played to a dance. The affair was well patronised, and it is expected a return visit will shortly be made.

The S. P. Orchestra played an engagement Monday Evg. at the Tivoli, for a dance under the auspices of the St. Albert club.

## Opens Dressmaker's Shop.

Miss Carrie Metzler has opened a Dressmaker's Shop, Plain Sewing, Pressing and Cleaning, in the Forster building, Main St. Reasonable charges.

The St. Matthew Choir has begun the practice for the special Christmas Eve service. The next practice is in Stony Plain on Tuesday Evg next.

The hockey juveniles put over their whit drive Tues. Evg., a good sized crowd of friends responding to their invitation. The affair was sponsored by the High school Hockey Boosters, who served a dainty lunch. The proceeds are to be devoted to getting uniforms for the players.

A Community dance is billed for Muir Lake Hall on Friday Evg. Nov. 23.

Attempted robbery of a store in Spruce Grove late Monday was reported to the Edmonton police by the night staff of the R. C. M. P., who stated that a large Chevrolet truck was seen to back up to the store and the back lowered. A moment later the truck was driven away without loading anything.

A beauty parlor has been opened in the Horne building by Florence Goebel, where permanent waving, etc., is being done at reasonable prices.

## 8. VISION IN SHOOTING

HERE is some valuable advice from shotgun experts, which will be welcomed both by novices and shooters who are anxious to improve their marksmanship. Russell W. Elliott, Manager of Elliott's Shooting Park at Kansas City, Missouri, writes: "There is probably no phase of clay target shooting instruction in which the novice receives so much misinformation as that pertaining to the use of both eyes. The well-meaning expert who shoots with both eyes open without knowing how or why will invariably tell the beginner in the game that he should also do so, without first enquiring about the relative strength of the novice's eyes."

"The theory of shooting with both eyes open is that it permits quicker vision of the target when it comes into view, but contrary to general belief, the left eye does not aid in the actual pointing of the shotgun after the target is seen. With a right-handed shooter, the right eye directs the gun, and it must be as strong or stronger than the left eye to prevent cross vision when shooting with both eyes open. A man whose left eye is the stronger should shoot from the left shoulder if he expects to make con-

sistently good scores when shooting with both eyes open.

"It has not been my experience that both eyes being open is a material asset in single target shooting, as there is plenty of time for the one-eyed shooter to pick up the target and break it before it is out of range. However, when shooting doubles in Skeet or in the field, where a slow shooter is at a disadvantage, then the larger field of vision to pick up the first glimpse of the target gives the man who uses both eyes a material advantage."

L. G. Sheppard, of the Ontario Hunters' Game Protective Association, St. Catharines, Ont., sends a simple method by which the beginner can determine which of his eyes is the stronger:

"To find out which eye is the stronger," he writes, "take a finger ring and hold it at arm length, lock through it with both eyes open at some object twenty feet away. Then close the left eye. If the right eye still sees the object through the ring which has not been moved the right eye is the stronger and may be trusted to align the gun and the shooter can keep both eyes open."

This is No. 8 of a series of 12 articles on Skeet Shooting. Cut it out. When all have been clipped, you will have a complete write-up of this sportsman's sport which is rapidly becoming the vogue across Canada.

## YOUR HOME IS YOUR CASTLE

Adapt only clean, constructive news by reading

THE CHRISTIAN SCIENCE MONITOR

A Daily Newspaper for the Home

It gives all the contemporary world news but does not include crime and scandal. The interesting feature pages for all the family are Women's Activities, Home Making, Gardens, Education and Books. Also pages for the Children and Young People. Vigorous editorials, an interpretation of news in the language of the "Home" and "Country" and "What the World is Up To" are an essential feature in every issue.

## THE TENDERFOOT

By GEORGE B. RODNEY

Author of "The Coronado Trail",  
"The Canyon Trail", Etc.

CHAPTER V.—Continued

"You see I ain't done much real cow-hand work. I was 'fin' in town and I got me a little bit o' money. I learnt what I could from a few books I read an' then I come West to learn the business. That's how come I was hired. . . ."

"Huh! Year . . . I . . . ! We see . . . ! That's fine. . . . Baines took in the creaking newness of boots and clothing, the clumsy equipment on the pony and he grinned into his hand. 'I see you've got three notches on your gun,' he said, with a grin at the others. 'Where'd you buy it?'"

"I bought it before I started West. All the books said that a notch is cut on the handle for every man who's been killed. . . ."

"Great God all mighty," said Baines, all at once. "You mean you've killed three men? In Chicago with a machine gun I reckon. . . ."

"Nope. I done it with an automobile. . . . I got all three of 'em at once. . . . It was just like killin' quail. They was all settin' when I hit 'em. You see I was coastin' downhill an' the machine swung off the roadside. They was playin' damned careless just like you was when I rode up and they was talkin' a lot o' damn fool talk same as you. . . . So . . . I killed 'em. . . ."

At that even Silent Lee laughed. "Oh, let him alone," he said, grinning. "You'll get nothing often him."

In this manner did Duro Stone come to the Hour-glass ranch.

The bunk-house did not know that Edith Carr, the pretty, red-headed daughter of old Joe Carr, saw the new arrival. She was mixing a mint

## Helps the Whole Family to Enjoy Greater Freedom from Colds

Doubly welcome to mothers is news that the makers of Vicks VapoRub have perfected a Plan for Better Control of Colds—to help reduce the number, duration and dangers of colds. Vicks Plan is introduced along with Vicks Va-tro-nol, the remarkable new aid in preventing colds—companion product to Vicks VapoRub, the modern method of treating colds. The Plan includes simple, easy-to-follow rules of health—to build resistance to colds.

## TRIAL OFFER BY LOCAL DRUGGISTS

Get these two Vicks products and use them as directed in Vicks Plan for Better Control of Colds. Full details of the Plan are given in each package of Vicks Va-tro-nol and Vicks VapoRub. Unless you are delighted with results, your druggist is authorized to refund your money.

## Mothers adopt Vicks Colds-Control Plan

## BRIEFLY, HOW VICKS PLAN WORKS:

## • TO HELP PREVENT COLDS

At that first stuffy feeling, that first nasal irritation or sneeze, quick!—Vicks Va-tro-nol—just a few drops up each nostril. Especially designed for nose and upper throat—where most colds start—Va-tro-nol stimulates the functions which Nature has provided—in the nose—to prevent colds and to throw off colds in their early stages. Used in time, Va-tro-nol helps to avoid many colds entirely.

## • TO HELP SHORTEN A COLD

If a cold has already developed, apply Vicks VapoRub at bedtime. VapoRub acts direct through the skin like a poultice or plaster, while its medicated vapors—released by body heat—are inhaled direct to inflamed air-passages. This double direct action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion. Often, by morning, the worst of the cold is over.

julep for old Joe who was sitting in his front office with his game leg straight out before him on a chair when Stone arrived. She promptly took her "makings" into the back-office but was quite close enough to hear what took place.

"I'm hearin' tell you want new men," quoth Stone. "I'm lookin' for a job."

"'At so?" demanded Carr. "What kind of a job?"

"Mostly eatin' with a little un-official drinkin' throwed in. I don't mind some ridin' on a nice family horse. I kin split wood and haul water an' . . ."

"By God," said Carr, "that's more'n most can do who hire out as cowhands. Know anything about cattle or is that outt all bought from a catalogue?"

"Not all of it," said Stone, grinning. "I won the spurs in a poker game."

"You're hired. Get back over to the bunk-house and kill the first coyote who tries to play practical jokes on you."

Edith came back into the room giggling. She had never seen any one just like that before.

"Who in the world was that, Daddy?" she asked. "He looks like a walking advertisement for Christmas presents."

"Looks like he'll do for you to play with, Honey, when he ain't workin'." We're sure out of luck when we have to hire men like that. He ought to do to ride fence and leave the other men free for regular work.

When Frank Crewe gets back send him in to me, will you, please?"

Edith gave him his julep, nodded her bright head, and picking up her quilt, passed out to the lie-rack where her pony stood. She was young; distinctly more than merely pretty and she dominated every soul on the Hour-glass. As her father watched her go, his face darkened. His bad leg hurt him but other things hurt worse and a little later, when Frank Crewe came in for a chat, he found his boss and old friend in the depths. Crewe did not help matters, for his dark face was darker with wrath where ordinarily it radiated good humor.

"Nothin' good, Joe," he said cryptically. "We've been comb'n' the back-ranges for a week an' we got maybe four hundred. Not prime stock at that. . . ."

"Four hundred. . . . Joe Carr's tone registered utter consternation. "The beginnin' of the round-up and only four hundred calves from more'n three thousand cows. . . ."

"Calves, hell. . . . Crewe exploded. 'I'm tellin' you, Joe, this four hundred is all! Git that? It's cows an' calves an' steerin' an' bulls, too. . . . Breedin' stock for increase. . . ."

"Carried to rise but sat back with a groan of pain."

"Hell," he finally ejaculated. "That just ain't possible!"

"I know it ain't. And I know, too, where the stuff's gone but I'll be damned if I could either prove it to be our stuff or show how it was stolen. I know those damned robbers over on the Broken Spur are at the bottom of it. I know they sent two thousand head out to California two months ago to fatten for the market and I know they got seventeen dollars where we get eight-fifty. They're glad to ship their cows out o' the State. But we were asleep. We ought to have a man at the losin' pen."

"I know. . . . I know," said old Carr placatingly. "I didn't have a man to send, as you know, and I didn't have the money to hire an extra man. I'd give a lot to pin what I know Dustin is doin' on to his card. But I can't. I wish to God we could find that man Gerald Keene. We've talked him over so damned often that I've got to sort of feel he might do us some kind o' good. I don't know but what he might. . . ."

"Huh. If you could get in touch with him, he might," conceded Crewe. "Somethin' got to turn up. . . ."

"Yeah. Like a hoe-handle when you step on the blade an' knock your foot brains out," said Carr viciously. "I got to borrow money to meet our next pay-roll, Frank. I reckon I'm busted flat. I'm sixty-five past and I've got Edith to take care of. . . . She didn't come till I was past forty, Frank. I got to find some way to take care of her. . . ."

"You needn't worry about her," said Crewe, who openly adored her. "Plenty of men'd be glad to relieve you of that care. Sam Dustin, for instance. . . ."

(To Be Continued)

## Where Minutes Count

A pneumonia patient should be given emergency treatment as quickly as a man hit by a truck. Dr. Russell L. Cecil, of Cornell University, told the Oklahoma City clinical conference. Describing pneumonia, an illness where minutes count, Cecil related recent discoveries which have made detection of pneumonia possible within two hours. Previously as long as two days had been required for definite diagnosis, he said.

## ASK YOUR DOCTOR FIRST, MOTHER

Before You Give Your Child an Unknown Remedy to Take

Every day, unthinkingly, mothers take the advice of unqualified persons—instead of their doctors'—on remedies for their children.

If they knew what the scientists know, they would never take this chance.

## Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia"—the safe remedy for your child.

Remember this—And Always Say "Phillips" When You Buy. Your child deserves it; for your own peace of mind, see that you get it—Genuine Phillips' Milk of Magnesia.

## Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

**PHILLIPS'**  
Milk of Magnesia  
MADE IN CANADA

## Ask Mother—She Knows

Mother took this medicine before and after the babies came. It gave her more strength and energy when she was nervous and rundown. . . . Keep her on the job all through the Change. No wonder she recommends it.

**LYDIA E. PINKHAM'S VEGETABLE COMPOUND**

W. N. U. 2078

## Like Canadian Fruit

An increase of approximately 3,000,000 pounds in the exports of Canadian canned fruit during the first half of the current fiscal year compared with last year, reflects the appreciation of world epicures for Canadian fruits, says a report of the department of trade and commerce.

## Returns From Abroad

Canada's Central Bank will not be modelled after any particular central bank of Europe, Graham. Towers, governor of the Bank of Canada, declared on his arrival at Quebec on the liner Empress of Britain after a trip of nearly two months to England and on the continent.

## Faster Way Found to Relieve Headaches

NOW PAIN OFTEN RELIEVED IN MINUTES!

Remember the pictures below when you want fast relief from pain. Demand and get the method doctors prescribe—Aspirin.

Millions have found that Aspirin eases even a bad headache, neuritis or rheumatic pain often in a few minutes!

In the stomach as in the glass here, an Aspirin tablet starts to dissolve, or disintegrate, almost the instant it touches moisture. It begins "taking hold" of your pain

practically as soon as you swallow it. Equally important, Aspirin is safe. For scientific tests show this: Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet.

Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.

## Why Aspirin Works So Fast

IN 2 SECONDS BY STOP WATCH  
An Aspirin tablet starts to disintegrate and go to work.

What happens in these glassed happens in your stomach—ASPIRIN in a few minutes after taking.

When in Pain Remember These Pictures  
ASPIRIN IS THE TRADE MARK OF THE BAYER COMPANY, LIMITED

## Fish Specials at the Sanitary Meat Market.

A Shipment of the following Fish was received from the Coast yesterday, and are now on sale:

6 pails Muskals, 10 lbs. Rollmops,  
3 pails Spiced Herring, Bismark style,  
1 pail Gaffelbiter, 2 pails Boneless Gaffelbiter,  
Anchovies, Breakfast Mackerel, Ryols,  
Norway EK Herring, Flatbread, Fishballs,  
Boneless Smoked Herring, Gammelost,  
Shrimps, Cove Oysters.

### THE WHEAT SURPLUS

The world's "carry-over" of wheat since 1928 has been about 1,100 million bushels each year instead of a normal of 625 million. Authorities estimate that by August 1st next the "carry-over" will be reduced to a figure between 725 and 825 million, or still show over 100 million bushels more than normal. A great shortage of coarse grains, however, is apparent throughout the world. Some expect that a substantial part of the world's wheat "carry-over" will be used to replace coarse grains. If this should occur, no doubt, wheat prices will tend to rise—otherwise they may not do so due to low purchasing power of European bread-eating people.

## S. P. Liberal Assc'n Meets in Stony Plain On Wednesday, 28th

As mentioned in The Sun two weeks ago, the Liberal Nominating Convention will be held at Kelly's Hall, in Stony Plain, on Wednesday next, Nov. the 28th, starting at 11 a.m.

In accordance with the Provincial Constitution of the Liberal party, the Convention will consist of delegates from each poll in the Constituency. These delegates will be elected at small local meetings which will be held in every poll on Monday, Nov. 26th, at 8 p.m. The Stony Plain Executive at their last meeting selected one person in each poll to look after the local poll meeting, the party chosen in the case of Stony Plain being Israel Umbach. The Executive hopes that every one who is interested in the Liberal cause will attend the meeting in their local poll, so that each poll may select delegates for the Convention. It is hoped that every poll in the riding will be represented at the Stony Plain Convention. On the same day the Annual Meeting of the Liberal Association will be held, so that a new Executive may be elected. The Stony Plain meeting to choose the Stony Plain delegates will be held in the Town Hall on Monday, Nov. 26, at 8 p.m.

### Masquerade at Holborn.

It has been several seasons since the dancers in the Holborn district favored themselves and friends by holding a masquerade dance. Another of these very pleasing entertainments will be held tomorrow (Friday) Evg. in Holborn Hall. The United Farmer's Local there is responsible for the affair; and there are to be good prizes, good eats, good music.

### Chicken Supper and Bazaar.

The annual bazaar and chicken supper under the auspices of the United Church Ladies' Aid will be held in the church on Saturday Aft. Dec. 1; Bazaar opening at 3 p.m. There will be an array of fancy articles—as well as plain sewing—which will make excellent Christmas gifts; so be on hand early to get your choice. The lucky draw for the beautiful Christmas Cake will also be made that day. 35c. is the admission to the supper for adults and 25c. for children under 12. Supper will be served from 5.30 to 7.

Masquerade Dance,  
Holborn Hall,  
Friday, Nov. 23d.

### UFA Nominating Convention.

The rumor that a candidate was chosen at the recent UFA Convention at Derwent to contest Stony Plain Constituency seat at the forthcoming Provincial elections, turns out to be incorrect. The Sun is informed by one who was a delegate to the said Convention that it was not a nominating convention. The same good authority informed us that a nominating convention will be held "before the New Year." So, those of us who felt slighted at not being offered the nomination, should cheer up!

### In Memoriam.

(In loving memory of Mrs Mary Barbara Schwenk, who passed away on Nov. 14, 1932.)

Two years have passed since that sad day.

The one we loved was called away.  
God took her home; it was His will:

But in our hearts she liveth still.  
The [dearest sister and sweetest friend—

One of the best whom God could send.  
She was loving, gentle, thoughtful

and true;  
Always willing a kind act to do.

It is not tears at the moment shed  
That tell how beloved is the soul that has fled.

But tears thru many a long night wept  
And loving remembrance fondly kept.

Ever remembered by her sisters,  
Mrs Val Ursel and Florence Goebel.

### Open Seasons for Game.

Deer, moose, Nov. 1 to Dec. 14  
Ducks, geese, Sept. 15 to Nov. 14

Elk, Oct. 1—Dec. 14  
Grouse, Oct. 1—31

22—"Tugboat Annie," at Kelly's Hall.  
23—Dance, Holborn Hall  
23—Muir Lake Community dance  
26—Skoo Ski club's Bridge party.  
26—Secretary's Best at the Royal Hotel  
28—Annual meeting of Liberal Association  
29—The P. S. Washburn Auction  
30—Dance, Warden School  
DECEMBER—  
1—Bazaar & Chicken Supper, United Church.  
8—Town of Stony Plain's tag sale  
31—New Year's Eve dance

### President Makes Statement.

R. S. Law, President of the United Grain Growers' Limited, issued the following statement on behalf of the Board of Directors of the Company while in Edmonton for the annual meeting of United Grain Growers:

"Impartial inquiry and recommendation obviously by the Board of Grain Commissioners, is required to learn if bear raids were made recently on the Winnipeg exchange by outside interests, and if regulation by the exchange against such attempts is needed."

Mr Law said that it is "obvious that such matters are not to be satisfactorily settled by a series of contradictory statements issued to the press, or by representations by interested parties made directly to the Government."

He declared that the Board of Grain Commissioners "commands the respect and confidence of the country" and that "the body could be given the status of a commission of inquiry."

Mr Law said that "the present regulations of grain handling under the provisions of the Canada Grain Act and the Board of Grain Commissioners represents the accomplishment of years of experience and study, and is to be regarded as a substantial and satisfactory achievement. Whatever changes may from time to time be required in connection with grain handling should be based on the solid foundation already established."

### Notice to Creditors and Claimants.

IN THE ESTATE OF PHILANDER SMITH WASHBURN, late of Stony Plain, in the Province of Alberta, Farmer deceased:

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named Philander Smith Washburn, who died on the 8th day of February, 1933, are required to file with the undersigned, Solicitor for his Executors, by the 17th day of December, 1934, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

DATED this 23rd day of October, 1934.
